MR. DULLES:

b. Noted a cable from [REDACTED] regarding alleged mishandling of [REDACTED] and asked Mr. Barnes for a further report on this matter.

c. Referred to a profile study on Khrushchev prepared by DD/I, and stated no dissemination would be made outside of the Agency for the moment. The Director said that should requests for a study of this nature be received, he himself would consider them on a case-by-case basis.

d. Stated [REDACTED] had requested authority to bring up to date the information contained in his book published in [REDACTED]. The Director said while he was sympathetic to such a request, he did not see how it was possible for [REDACTED] to distinguish between information obtained through his employment with the CIA and that which he reads in the newspapers. He said, however, there was no objection to [REDACTED] book being published in other languages and, should he so desire, there would be no objection to the addition of a Foreword or footnote indicating the information contained was as of "such and such a date." Action: DD/I
